

Kamome Town

Beach Resort

This is a 3D model set with the image of a tropical tourist city.
A lightweight model for mobile specifications

Hand painted texture
Saved size textures and materials
Buildings with interiors, numerous stores and display parts
Building/Accessories/Plants/Topography All-in-one

- Many buildings have entrances, shops, and indoor prefabs on the first floor.
- highrise can be assembled into various shapes by combining parts.
- We have prepared a simple tile map for mobile so that you can create a coast without using a terrain.
- Building, neon, and window materials can emit light with emission texture.

Prefab List

Building
size 65

Triangles 10-10381 average 1478

- Some buildings The first floor is empty and You can fit the parts of the store there.
- Several buildings can be combined into a large building.

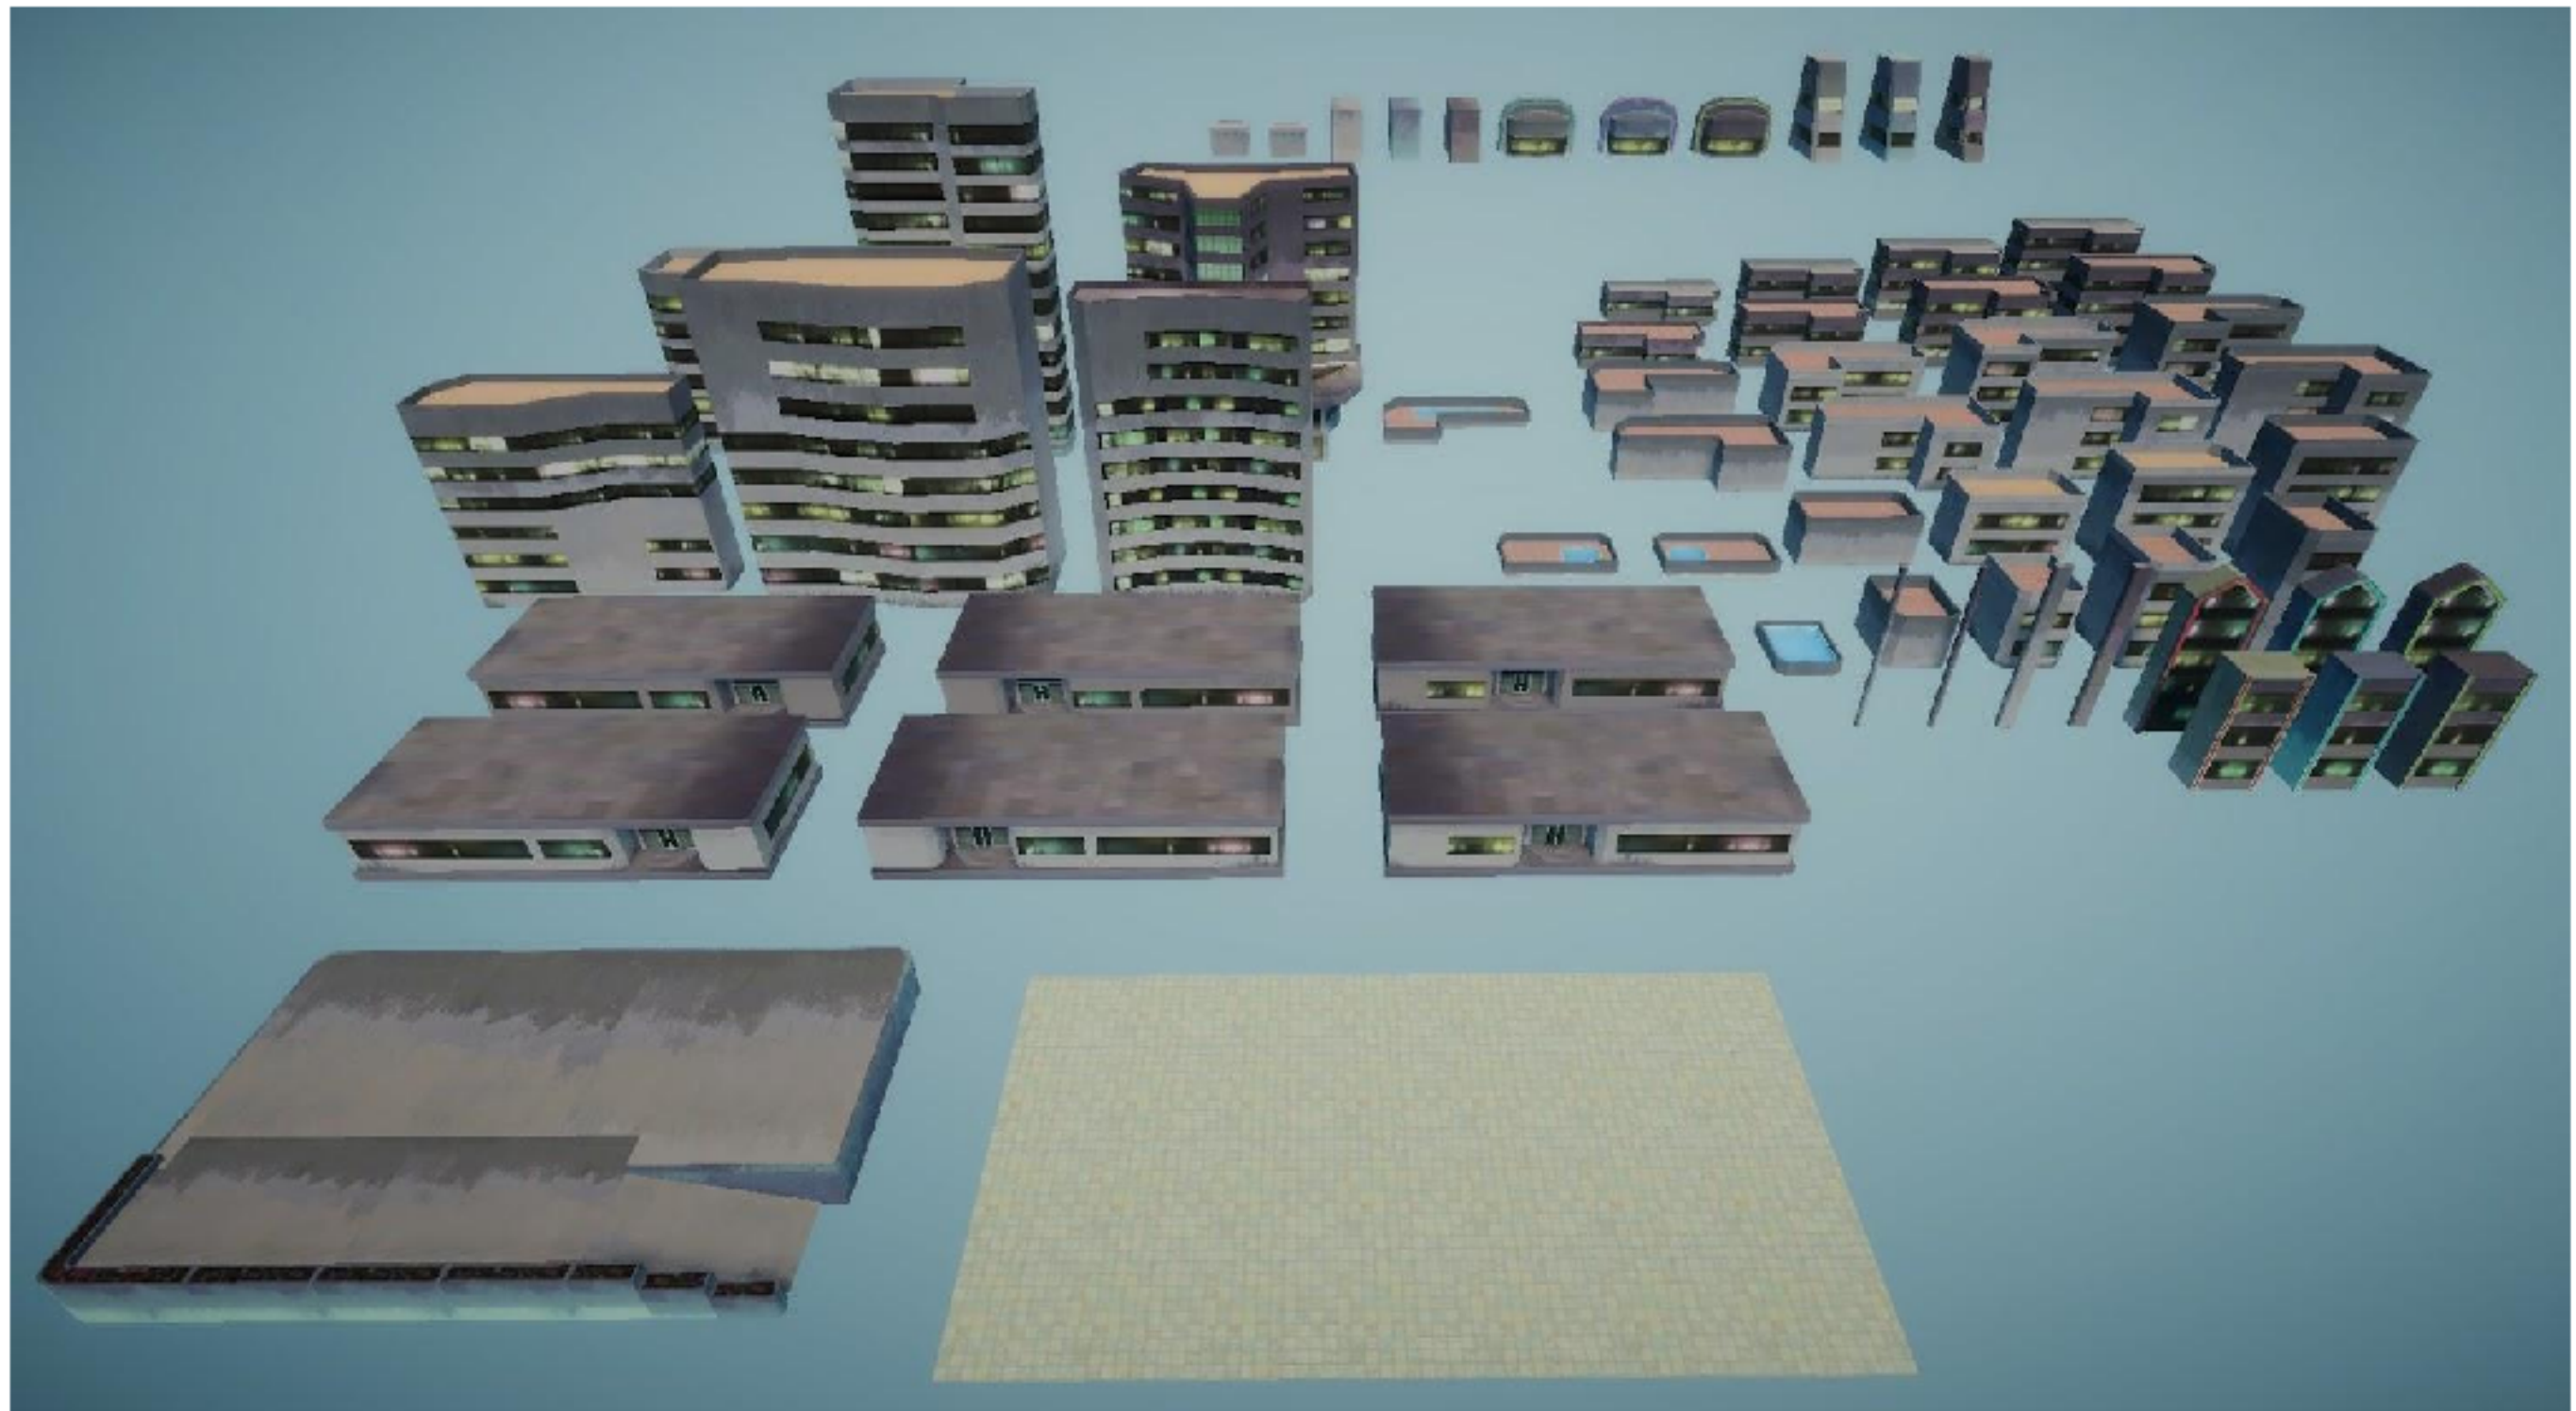

Hirise

size 68

Triangles 20-1508 average 258

-You can make a building by combining parts such as the foundation, entrance, and rooftop.

shop and outfit

size 233

Triangles 4-608 average 107

-It is a store that fits on the first floor of the building.

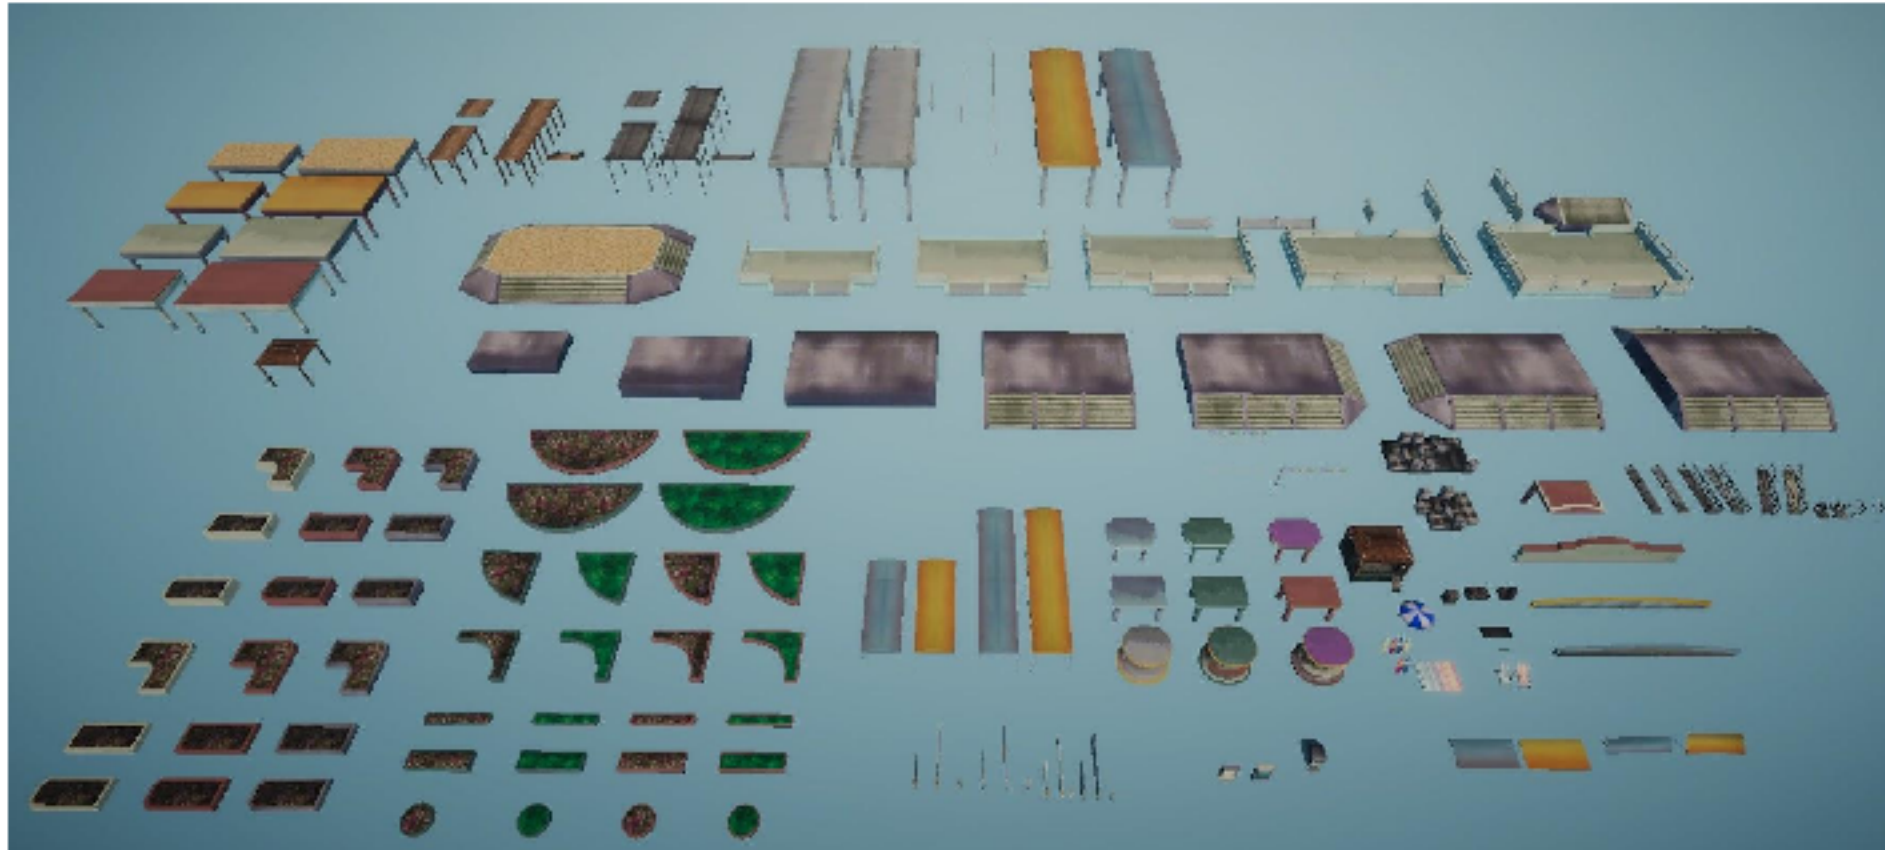

-Some parts have windows that allow you to see the interior, so you need to make the interior.

-Some of the items on the shelves are decals and billboards.

It is a simple model for displaying within reach.

Triangles 20-1804 average 180

- Models that use alpha textures, such as plants, should use double-sided shaders.
- * The same model of double-sided polygon is also available.

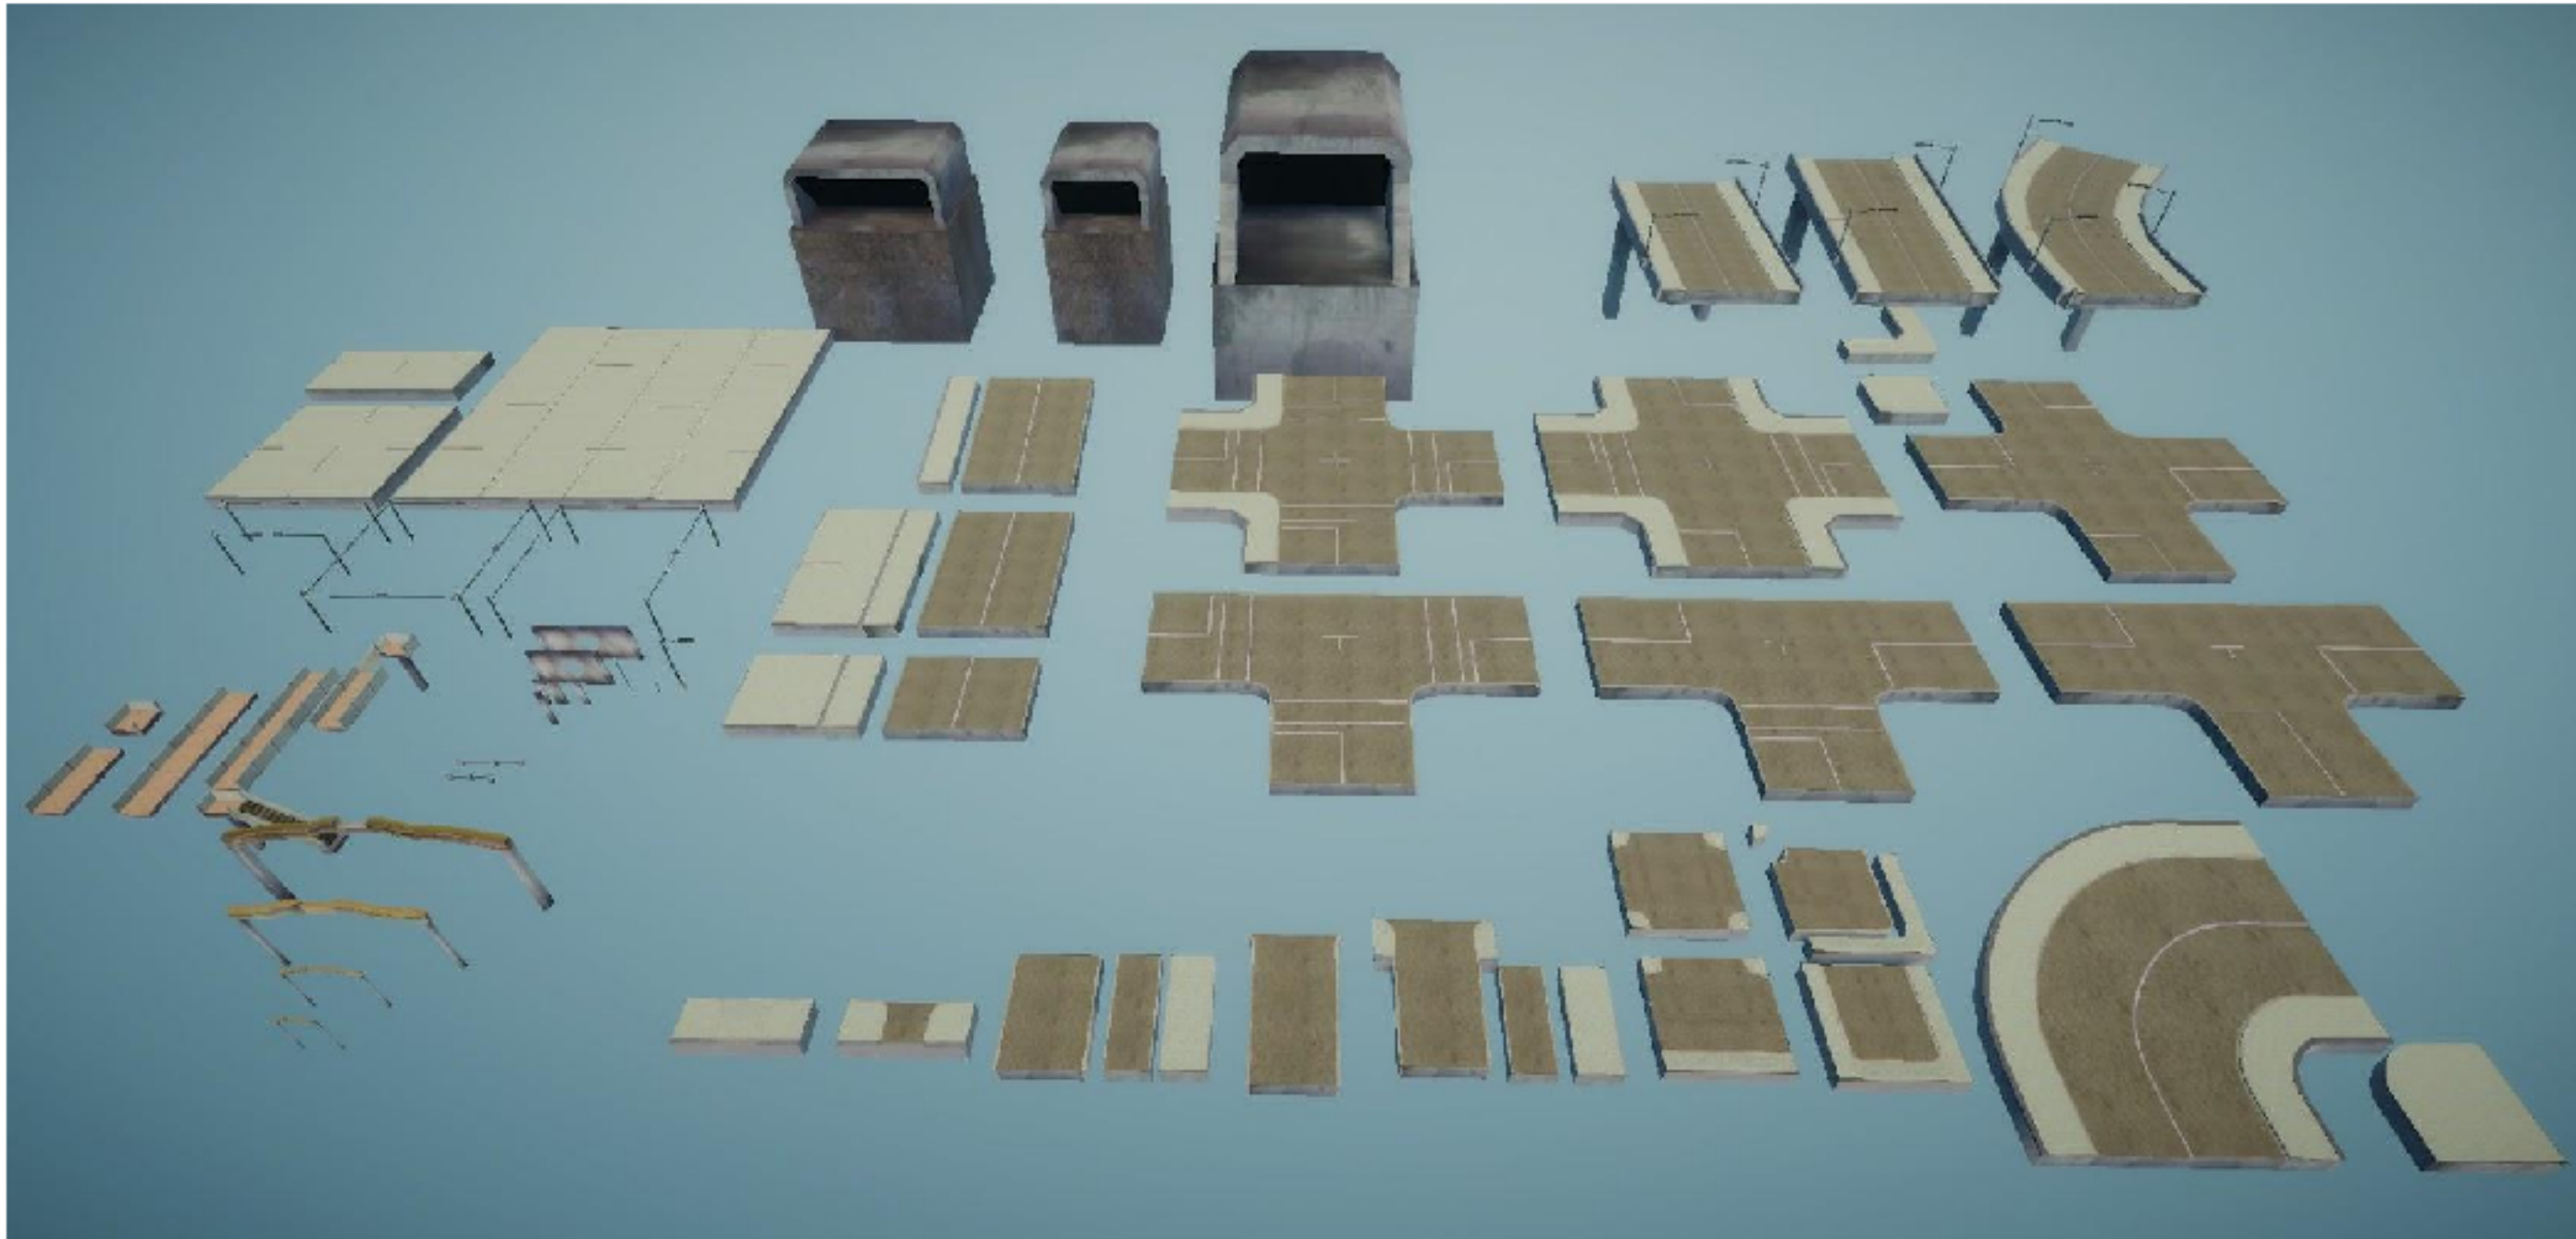

- Some of the plants have a sagging shape for placement on steep slopes and cliffs of rocky mountains.

- To plant vegetation without Terrain, use assets with a large number of Prefabs and mesh integrated assets.

Traffic
size 79
Triangles 24-976 average 245

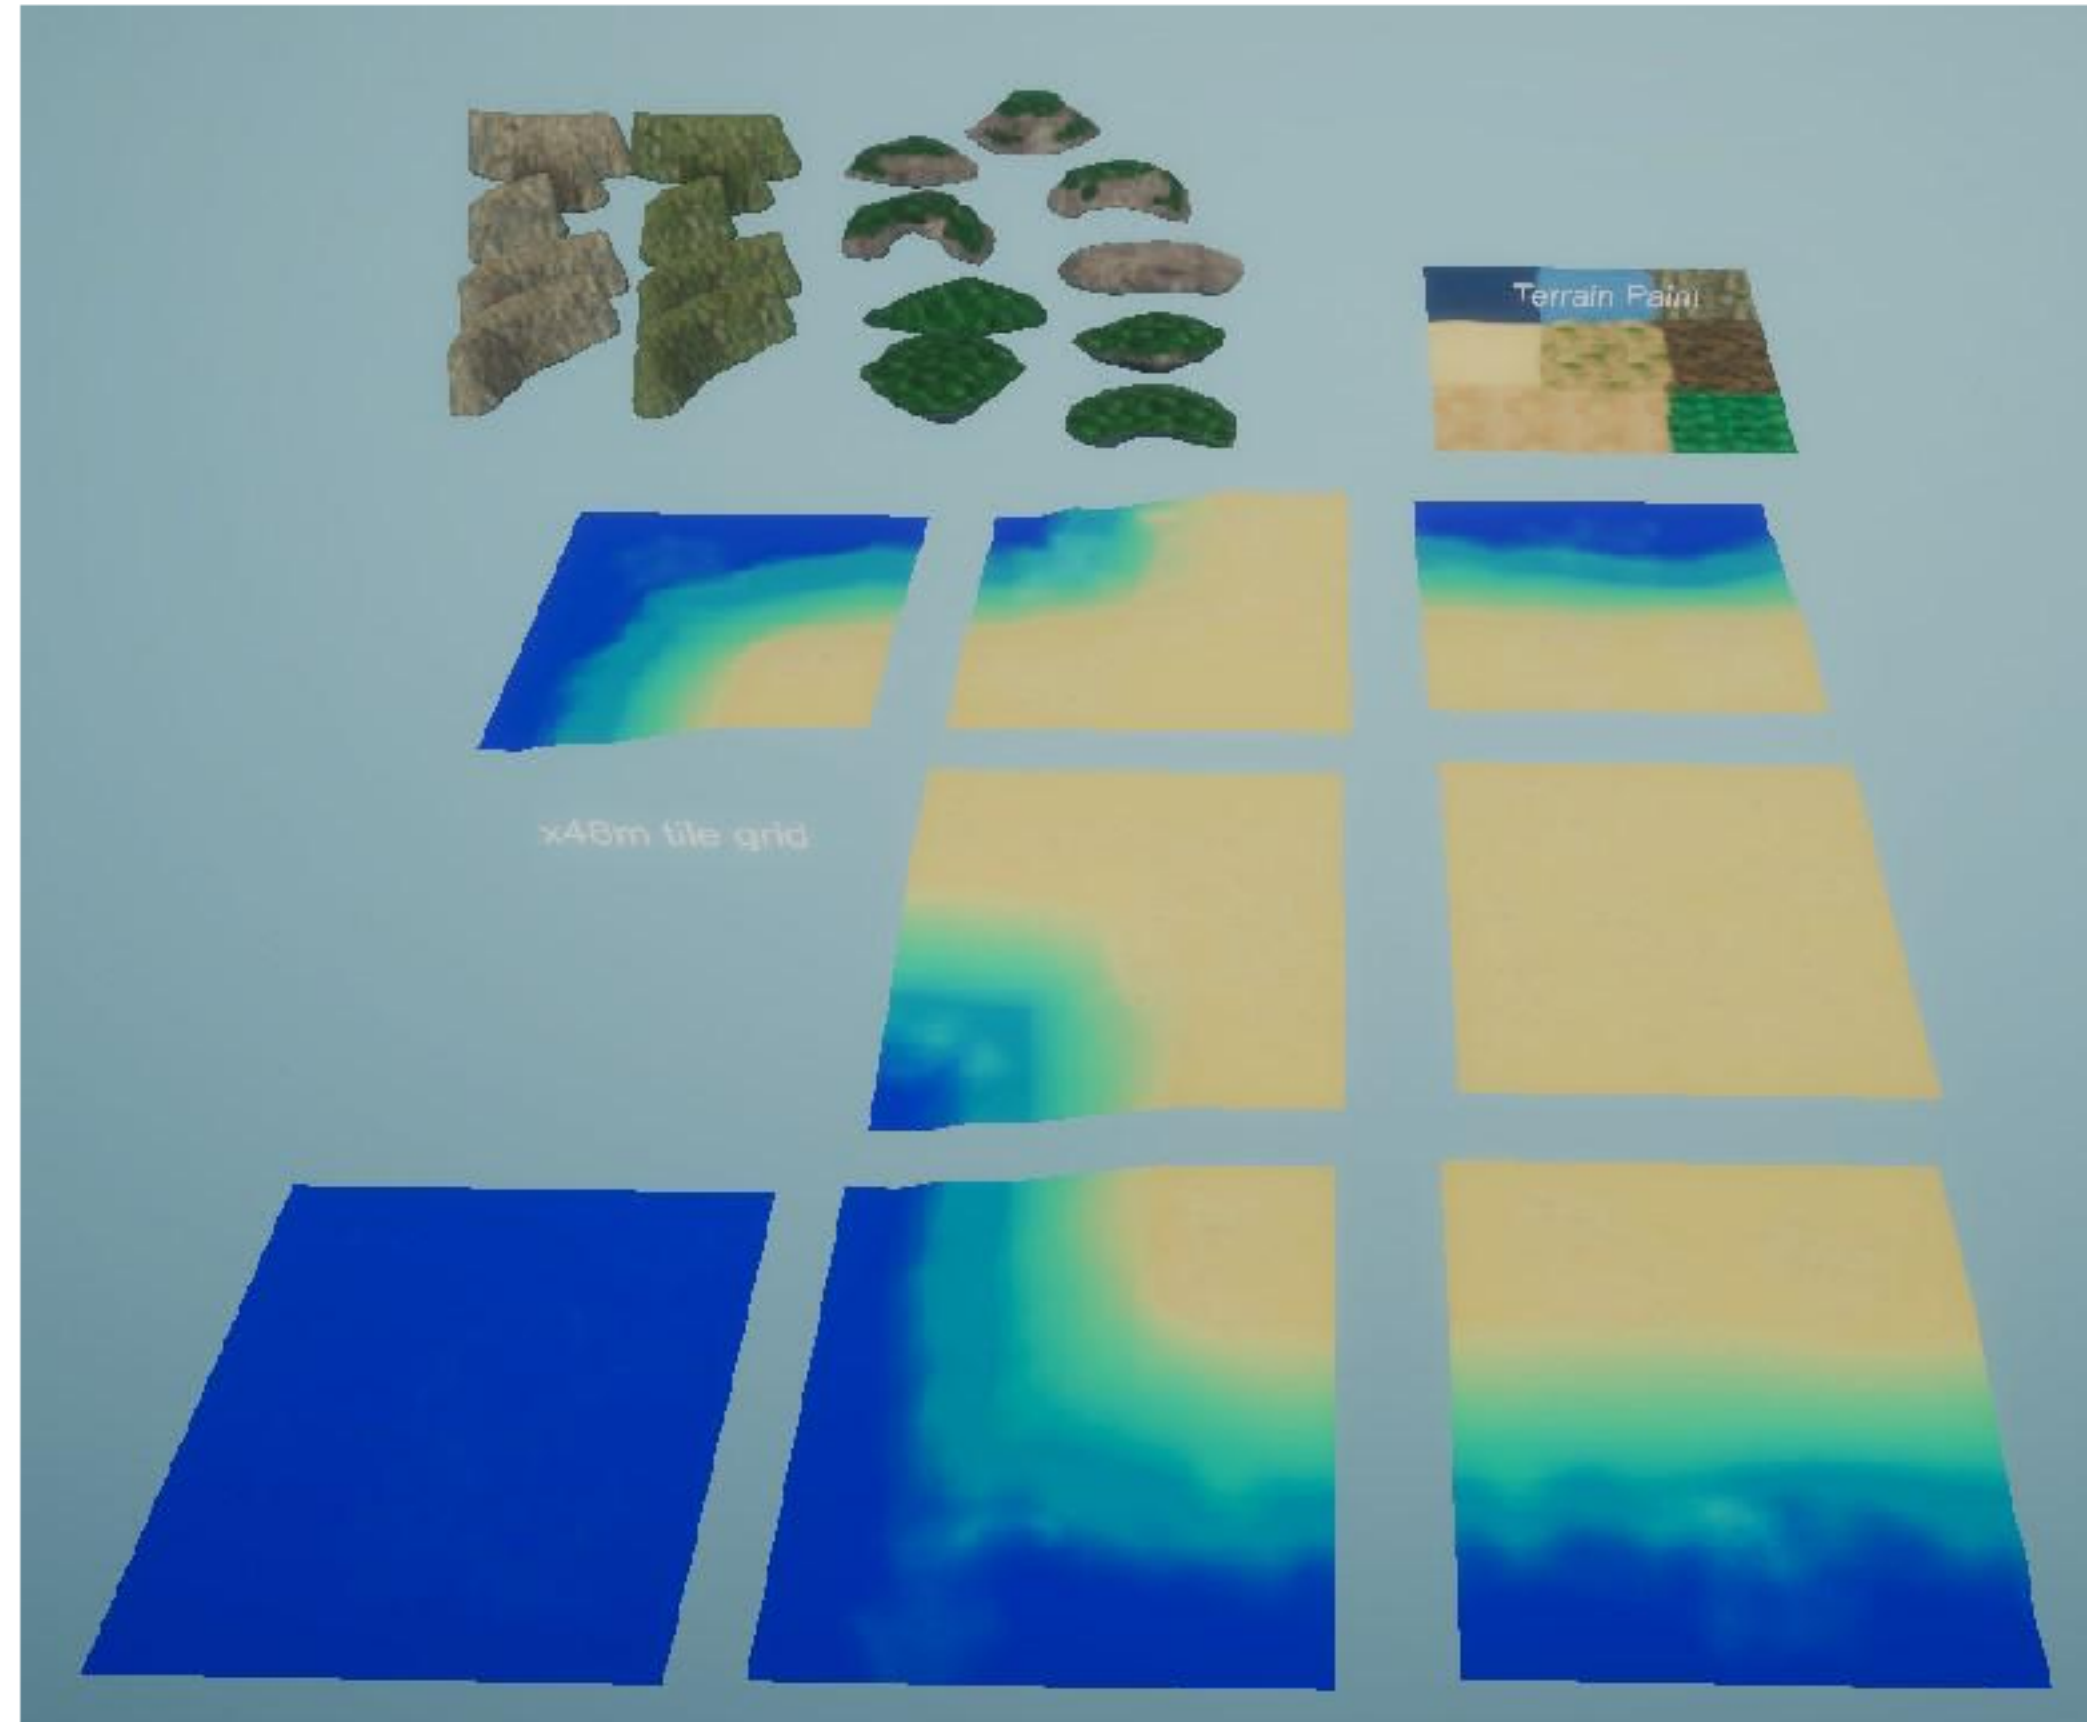

Roadways, sidewalks, traffic lights, pedestrian
bridges, gates, elevated roads, tunnels, sites
You can assemble the foundation of the town.

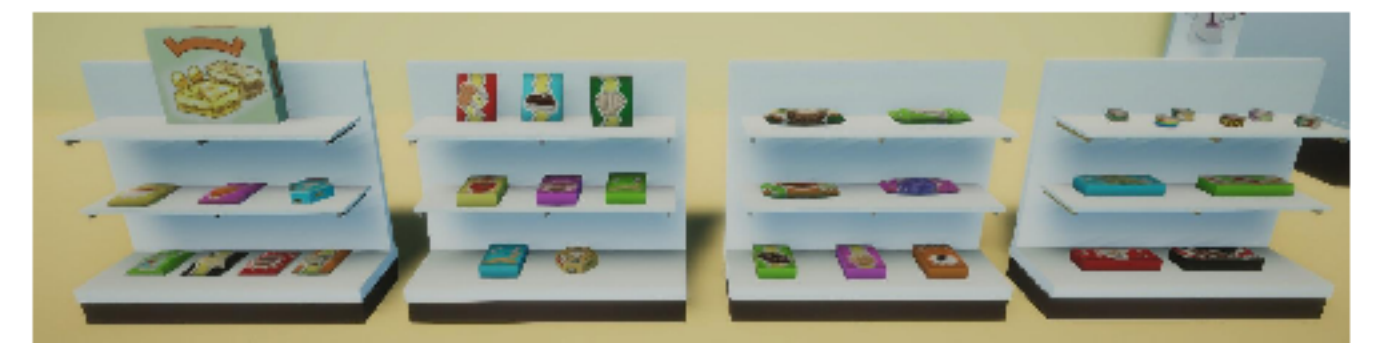

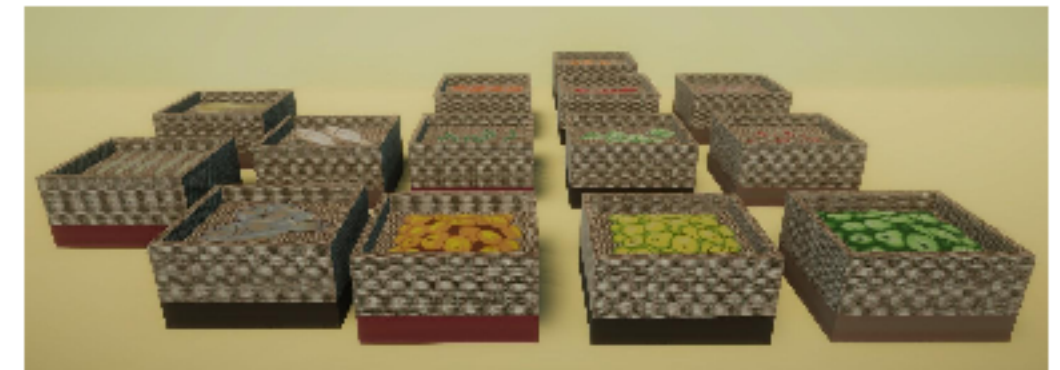

Landscape
size 28
Triangles 2-300
average 170

-A simple model for
creating coasts and
seabeds without using
terrain.

- It is 40 meters on a side
- There are no
connection parts with
gravel tiles.
- Rocks (cliffs,reefs) are
supposed to be used for
planting plants or for
distant views. Because the
texture resolution is low.

Ready-to-use prefab

Material & shader

This asset contains only basic shaders.
Please prepare
Water shader ,Double sided shader
and Skybox material.

This asset is also designed to create
pictorial visuals.Toony material works
well.

Make Night scene

Night Texture and
Emmision Texture bundled.
To create a night scene,
replace Night texture or
enable Emmision.
